Address:

Hamburg

Price:

3500.00 \$US

THIS TRUCK IS 2 WHEEL DRIVE ONLY

new tires,98000 original miles. Runs and drives like new. Only drawback is check engine light is on for evap. I replaced all components and light was still on so I did a smoke test on evap system and found seal on top of fuel tank was leaking smoke so it does need a fuel tank. The guy I bought it from said he just put a new fuel pump in but I think he screwed tank up in the process. This is a very nice truck. I want \$3500 or best reasonable offer.

I will not answer to "is it still available" if its listed, its available.
