My top tips when looking for a cleaner ????????

When people come to me with enquiries, I often hear things like:

????? From those who already have a cleaner:

“My current cleaner is so unreliable.”

“They cancel last minute or keep messing me around.”

“They just don’t seem to care anymore.”

"They were great at first, but now their standards have slipped."

“They always say, ‘I didn’t have time to do that today.’”

????? From people looking for a cleaner for the first time:

"I don't even know where to start."

“How does it work?”

“Do I need to be home while they clean?”

"I'm not sure exactly what I want done."

? Here's what I always advise:

[illegible]
